

Freshmen & New Student Computer Information

During class orientation, each new Sion student will register and receive her new MacBook Air. In order to receive a device, she must complete the following:

FIRST Each student will need to have an Apple ID. She may use her personal one or create one during the registration process using either a personal email address or her new school email address. I do not recommend using the “Family” or parent’s Apple ID. It is best if it is registered to an individual.

SECOND Review and sign the 2017-2018 Acceptable Use Policy (AUP) form. This form requires both a student and parent signature so that all parties are aware of the policies and responsibilities of the student with regard to her care and use of the laptop. The AUP will be sent for electronic signature in early August. It must be signed before the student may receive her laptop.

THIRD Every student will attend a 1:1 orientation session where she will register her device, create user accounts and passwords and receive management information. Students will be assigned a specific time and room for their session during orientation.

QUESTIONS Please feel free to contact Jason Ketter, Director of Technology at jketter@ndsion.edu or call 816-942-3282 with any issues or concerns you may have.
